DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 17, 2007 has been entered. Applicant amended claims 1-3 and 32 and canceled claims 17 and 20. Claims 1-16, 18-19, and 21-32 are pending.

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because figures 2 and 5 contain text that appears cut-off and figures 6 and 7 contain uneven shading rendering the drawings difficult to read. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-16, 18-19, and 21-32 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicant's disclosure does not provide support for in-situ calculations.

Allowable Subject Matter

Claims 1-16, 18-19, and 21-32 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 1st paragraph, set forth in this Office action.

Response to Arguments

Applicant's arguments, filed September 17, 2007, with respect to the 35 USC 103 rejections in the office action dated October 10, 2006 have been fully considered and are persuasive. Applicant's remarks regarding in-situ calculations do not provide support for the subject matter as noted above in the 35 USC 112, 1st paragraph rejection.
